REME Museum Visit

Meet in Crowns Cafe for refreshments from 10am

The escorted group tour will be with staff Sergeant Rob Davies and start at 11am.

The Royal Electrical and Mechanical Engineers museum is a newly built facility with a rich selection of classic and unique exhibits.

The REME Corps was formed during WWII and supported the D day landings and has a heritage of over eighty years old. There are specialist vehicles from many campaigns including the Imjin Korean battle and a collection of classic military motorcycles. The Museum was awarded the prestigious Visit England Hidden Gem award for the fourth year in 2021.
