Innovation. It takes patience and skill. Sometimes you're on a roll, then you're back to square one.

Now it's your turn to play for a profile-raising prize to put your innovation ahead of the pack. The 2016 IET Innovation Awards.

What you'll gain by entering

- Your name in front of the IET's entire 167,000 membership: all shortlisted and winning entries are promoted to our members across the world
- Accolade from the industry – the IET Innovation Awards are the most rigorously peer-reviewed in the business
- Past winners regularly use their award win to further their product development, business growth and engineering reputation
- Demonstrate your innovation to 500+ award ceremony guests at the *Discover Innovation: Shortlist Showcase*, open to all finalists
- Winners receive a personalised trophy and additional support from our PR agency
- A selection of winners will be invited to display their innovation at the interactive feature *100 Engineering Ideas that Changed the World* at IET London: Savoy Place

Award Categories

- Communications
- Cyber Security **new**
- Emerging Technology Design
- Energy **new**
- Healthcare Technologies
- Horizontal Innovation **new**
- Information Technology
- Intelligent Systems
- Manufacturing Technology
- Model-Based Engineering
- Navigation and Surveillance Communications
- Power
- Start-up
- Sustainability
- Transport

Will you play? The rules are simple

1. Go online at www.theiet.org/innovation to download the entry pack and submit your entry form online by **8 July 2016**.
2. If you are entering more than one category, remember that you need to submit a separate entry for each. You can enter each innovation in to a maximum of 3 categories.
3. Put away your credit card – the IET Innovation Awards are **free to enter!**

What happens next?

Our judging panels – all leading experts in engineering and technology – independently and rigorously review each category. We'll announce the shortlist in late September, with the winners revealed at a black-tie ceremony and dinner, in front of 500 finalists and industry leaders.

Save the date for the ceremony taking place at The Brewery, London, on 16 November 2016.

Your entry checklist

- ✓ Completed entry form
- ✓ Photo of your entry plus one of your team at work
- ✓ Title, short description, contact details and Twitter handle
- ✓ Option to submit up to 7MB of supporting material

**FREE
to enter!**

“ This Award will be tremendous for us to help market the technology, both in the UK and overseas. ”

Will Temple, Chinook Sciences

**Winner of the 2015
Power / Energy Award**

“ Winning this award serves as another important point of validation, from a prestigious institution. It is a true honour to be selected out of such an impressive group of finalists. ”

Daniel Shani, Energy Intelligence Inc

**Winner of the 2015
Intelligent Systems Award**

“ This is the sixth award we have won, and this is by far the best. The most prestigious; the most significant. ”

Mike Woodroffe, Aeristech

**Winner of the 2015
Emerging Technology Design Award**

“ It will re-energise us and take us forward into many more markets where we can apply this technology. ”

Sheila Metherell, Metrasens

**Winner of the 2015
Measurement in Action Award**
