

THEME: A NEW AGE

Why? Our generation is living in one of the most tumultuous and interesting times that history has seen- democracy is in question, education risks becoming a business, political and economic integration is falling apart, the environment faces serious challenges, design has never been so widespread, technology is slowly replacing workmanship and scientific advances have never been so significant in our everyday lives.

This Year's Conference theme is focused on the instability of our future and the impact that we can have on shaping it as we move forward. TEDx seeks to bring together a multi- disciplinary group of speakers to share in the discussion of the opportunities of this 'New Age'.

From innovation and advancement in science, medicine or technology to philosophy, education and politics.

We want to know: What does the future look like to you?

TALKS:

This Year's Conference theme is focused on the instability of our future and the impact that we can have on shaping it as we move forward. As part of this, we are urging societies to take part in our conference, for the first time. Whether this would be a table showcasing the society's work or a workshop relevant to the theme, we want your involvement in making this the best and biggest TEDx University of Leeds event, to date. If interested please email us on tedxuniversityofleeds@gmail.com or at ml14pmvm@leeds.ac.uk, with the following form filled in:

Society Name:

Purpose/Nature of Proposed Workshop:

How does your proposed workshop fit within the overall theme of the Event?

Materials/Resources Requires (Can you provide some of these yourselves?)
