PRESS RELEASE

Radio TechCon 2022 - First Sessions Revealed

Radio TechCon - the UK radio and audio industry's technical and engineering event - has announced its first sessions as tickets go on sale.

The one-day conference is back in person at IET London: Savoy Place on Monday, 28th November 2022.

Sessions revealed so far include:

- Staying on Air - a live link up to broadcast engineers keeping radio on air in Ukraine. Plus what every broadcaster needs to think about in times of war.
- Adding Neurodivergence to the Mix - What audio experiences are autistic listeners seeking out? Learn how to mix your show for neurodivergent audiences as we hear the latest research on autistic listeners and audio.
- Pictures on the radio - how to build a tv station using radio equipment, with the team behind TalkTV.
- Adaptive Podcasting - how to give your audience a different version of the same show using their phone in real-time. Perfect for personalisation!
- World Radio Congress - radio spectrum is up for grabs at international level. Learn how you can fight to make sure radio and outside broadcasts aren't affected by the proposed changes.

Ann Charles, from organisers TBC Media says, "It's wonderful to be back in person after two years of being online due to Covid-19. We're so excited to be showcasing the amazing innovation and creativity of the broadcast engineering community. If

you want to know where the future of our industry is headed - you need to be here!"

Delegates will be able to meet representatives from sponsors Broadcast Bionics, Arqiva, the IET, LAWO, Broadcast Radio, RCS, CGI, Preco and Nomono during the breaks, as well as enjoying an evening drinks reception.

Tickets are £175 + VAT with discounts for members of the Radio Academy (and its affiliate members such as the Community Media Association and Student Radio Association) and members of the IET.

Tickets and full event details can be found at radiotechcon.com

ENDS

Notes to Editors:

- TBC Media Ltd is run by Ann Charles and Aradhna Tayal. It exists to support the UK radio and audio industry by running events to support the technical community, most notably Radio TechCon.

- The TechCon conference has been run by different groups during its history. Previously it was organised as part of the UK Radio Festival, under The Radio Academy. Since 2016 it has been run independently by TBC Media Ltd.

- Radio TechCon is aimed at people with a hands-on interest of technology in radio and audio. All are welcome, from engineers to producers and those working in related industries.

- Standard tickets cost £175 + VAT. Radio Academy and affiliated organisations (e.g. Community Media Association / Student Radio Association) tickets cost £150 + VAT. IET member discounted tickets cost £160 + VAT. Discounts can be accessed from a code via the relevant organisation.

- Broadcast Bionics is a global leader in software development, consultancy, support and hardware distribution to the broadcast and installation markets. Broadcast Bionics aim is to produce "smart" IT solutions which utilise the most advanced technology to provide solutions which are simple, powerful and intuitive to use.
