

NORTH EASTERN RAILWAY ENGINEERS' FORUM

Priory Street Centre, York

Wednesday 20 September 2023

The Forum represents a collaboration between the relevant sections of the Engineering Institutions involved with railways - ICE, IMechE, IET, IRSE and PWI - in North East England with a view to promoting understanding and across the interfaces between disciplines to mutual benefit.

At this, our annual event, we enjoy a number of presentations on current developments of interest across the disciplines, with questions taken afterwards.

We return this year to the Priory Street Centre in York. However, this year, the forum will be "In-Person" only, with no on-line access.

The Priory Street Centre, 15 Priory Street, York, YO1 6ET – is 10 minutes walk from York Station. There is no parking on-site, but there is a public car park 5 minutes walk away in Nunnery Lane, YO23 1AA. Some, but not all, York Park & Ride services will operate late enough in the evening for attendees to use when they leave the forum; details are available on www.itravellyork.info.

As in past years, we are grateful for the kind sponsorship of Sabre Rail Services Ltd, a leading independent rolling stock systems and component specialist from our region.

Sabre Rail Services Ltd, Grindon Way, Heighington Lane Business Park, Newton Aycliffe, Co. Durham DL5 6SH.
