

UK heat flow map (Busby, 2010)

As the UK turns to renewable energy in the journey to Net Zero, untapped geothermal resources have the potential to provide an abundance of low-carbon heat and electricity for homes across the country. Cumbria's geology could make our area a suitable place for a deep geothermal facility; but would it gain social acceptance in the county?

DEEP GEOTHERMAL ENERGY IN CUMBRIA: SOCIAL LICENSE TO OPERATE

An illustrated lecture will be given by

Rose Yates MSc University of Stirling

7.30pm Wednesday 8th November 2023

THE FORUM, Duke Street, Barrow-in-Furness

This lecture qualifies for CPD accreditation

All Welcome Admission Free
