#ForThoseWhoDoMore

Sustainable Manufacturing, Ethics and Challenges for a Circular Economy

True Sustainability

Sustainability goes beyond just lowering carbon emissions; it encompasses ethical dilemmas in manufacturing and supply chains. Dr. Ashwath Pazhani's talk delves into issues like resource depletion, waste, forced labor, and food waste.

Dr. Pazhani is passionate about promoting ethical engineering practices and inspiring future engineers to consider the wider societal impact of manufacturing and technological advancement.

Organised by: IET/BDAE
