Brighton Atlantic Project

The final phase

David Jones
Secretary – Brighton Atlantic Project

This talk covers the reconstruction of an LBSCR Class H2 4-4-2 steam engine at the Bluebell Railway using a boiler from a similar Great Northern Atlantic locomotive discovered at a factory in Maldon.

After many years of fundraising and construction, this new-build is approaching completion, hopefully before the end of the year.

The Institution of Engineering and Technology is registered as a Charity in England and Wales (No. 211014) and Scotland (No. SC038698), Futures Place, Kings Way, Stevenage, Hertfordshire, SG1 2UA, United Kingdom.
