Wireless Connectivity for Industrial Processes

Dan Holme
Architect
CISCO

Wireless technologies can bring mobility to industrial processes.

This talk will provide an overview of the communication nuances of industrial processes, and some of the wireless technologies available to suit. We will also look at potential pitfalls of implementation, and the standards ecosystem around this domain.

The Institution of Engineering and Technology is registered as a Charity in England and Wales (No. 211014) and Scotland (No. SC038698). Futures Place, Kings Way, Stevenage, Hertfordshire, SG1 2UA, United Kingdom.
