Building a Net Zero Energy Future – How can I get involved

Aijuan Wang
Managing Director - AJW Power Limited

The UK is the first major economy who has a legally binding net zero CO2 emission by 2050. To achieve the goal, energy sector must be decarbonised by 2035.

This talk will exam multiple pathways of how to transform energy industry to net zero, analyse changes required in electricity trading arrangements, and how consumers could get involved to reduce energy bills.
